Keep your TORLYS Floor looking beautiful

- Dust mop (with a non-treated, clean mop) or vacuum regularly to remove loose soil.
- Wipe up spills quickly with cloth or sponge.
- Clean as required with TORLYS Natural Glow Eco-Friendly Cleaning Kit.
- Only use TORLYS maintenance products. Never use wet mops, highly acidic or alkaline cleaners, non-recommended commercial cleaners or polishes, or a treated mop that has been used to clean other floors or furniture.
- Use floor-protector pads on furniture feet. Protect your floor from hard castors on moveable furniture.
- Use caution when wearing high heels and keep pets' nails trimmed.
- Use entry-way (non-skid, cotton) mats to capture tracked-in dirt and soil, and clean them regularly. Rubber or fiber-backed mats may stain or scratch floor finish.

Maintain Humidity in Your Home

Your TORLYS Floor is a natural product. Use a humidifier or dehumidifier to regulate humidity (30% to 60%) and minimize expansion and contraction. This is required to preserve your floor.
