

Hard flooring services for builders and designers

Introducing Floorboards and our specialist
service in the Waikato and Bay of Plenty

Timber / Laminate / Cork / Hybrid / Leather

floorboards 

Welcome to Floorboards

Floorboards are your hard surface flooring specialists in the Waikato and Bay of Plenty. For over two decades, we've been supplying and installing timber, laminate, cork and hard surface floors into new builds and home renovations. We work closely with homeowners, builders and interior designers.

Started by Matt Webb, a builder with a passion for project management and an eye for detail, he made the decision to consider the flooring process from the perspectives of both the builder and the client. This philosophy has guided our team ever since, ensuring a smooth process from flooring selection to installation.

As a small, family-run, independent business, we take pride in being one of the industry's most trusted suppliers and installers of hard flooring. Let us help you create a beautiful home for your clients with our quality flooring solutions and specialist services.

Choosing a floor is easy with our expert advice, quality products, and specialist services

Flooring supply and installation

We carefully select the best ranges from trusted brands across the world to ensure our products meet our high standards for performance, price, and style. All of our products come with extensive warranties to give our clients added assurance.

A wide range of hard flooring options

We offer a wide range of hard flooring products for both renovations and new builds. Whether your clients are interested in wood, laminate, cork, hybrid vinyl or waterproof options, our specialist team will help your clients navigate the choices and highlight the unique qualities of each flooring type. We'll guide them through the selection process and ensure they make an informed decision to meet their budget and aesthetic needs.

We go beyond the floor

We know that it's the small details that matter when bringing a home together. That's why we offer powder-coated trims that are colour matched to the joinery. This creates a discreet blend with surrounding surfaces, resulting in a seamless look.

A better flooring finish

At Floorboards, we use an innovative undercutting technique to install floating floors by rebating skirting boards and toe kicks. This method ensures the flooring fits nicely, eliminating the need for follow-up visits to complete fitting or for re-touching skirting or toe kicks. Plus, it requires less silicone sealing of edges, resulting in a better finish.

We lead with education

Our goal is to help builders and designers to stay current with their flooring knowledge and have the latest data at their fingertips. We also manage your flooring samples to ensure your clients receive current product information.

Image gallery of real-life installations

Our clients enjoy seeing what our floors look like in actual homes, not just 3D-rendered images. That's why our image gallery features real-life installations of our flooring. This gives you and your clients a realistic idea of how a completed project might look in different room settings and see our quality of workmanship.

Fast quote turnaround

Within 24 hours of receiving dimensioned plans or completing an on-site measurement, we'll provide you with a supply and install quote that includes GST, travel, trims, underlay, and waste. We include cardboard covers for all new builds to protect the floor from other trades working in the home. Our quote will also include a floor cleaning kit for the correct care of the new floor.

Professional service and support

Once your clients have made their selection, our contracts manager will schedule an installation date that works within your builder's timeline. We have multiple installation teams working across the Waikato and Bay of Plenty, all professionally trained to install our floors to our high standard. Our process is designed to be informative, efficient, and stress-free, ensuring that you and your clients are happy, with a beautiful, long-lasting floor.
